

New Winter Weather Rules!

Help Norristown Public Works Crews Keep Our Streets Clear of Snow

DO NOT shovel snow into the streets. Snow removed from cars and sidewalks and placed in the street creates dangerous ice patches. Ordinance 11-16 allows Norristown police to ticket violators (\$10).

DO NOT place objects like chairs or cones in the street to reserve a parking space. These objects make it difficult for public works crews to properly plow the street. Ordinance 11-17 allows public works crews to remove these objects and dispose of them.

Make sure you continue to remove your vehicle from the street on scheduled street maintenance days so plows can push snow back to the curb. Maintenance route restrictions are posted on signs on most streets in Norristown.

For more information about snow removal, visit the Norristown website to view the Norristown snow plan at www.norristown.org and follow the link to the public works department. Notices are also posted on our public access channel 965. Questions? Call the Public Works Department at 610-270-0437.

Thank you for your cooperation!
